ABOUT US

Specialist sealing solutions for critical infrastructure and grain storage

Global Sealing Group is a specialist provider of advanced sealing, containment, and protective coating solutions. The Group operates through two core divisions – Global Sealing Services (GSS) and Uniseal Manufacturing – delivering fully integrated solutions from product development through to on-site application.

Headquartered in Maddington, Western Australia, Global Sealing Group supports projects nationwide. With over 50 years of combined experience in food commodity storage sealing, the Group is recognised as a market leader in Australia, particularly within the grain storage sector, while also servicing broader industrial, infrastructure, and resource markets.

OUR DIVISIONS

FIELD SERVICES & INSTALLATION

Specialists in large-scale sealing systems, membrane application, shutdown works and controlled atmosphere solutions.

PRODUCT DESIGN & MANUFACTURING

Designing and manufacturing high-performance sealing systems engineered for Australian conditions.

INDUSTRY LEADERS IN GRAIN STORAGE

Global Sealing Group has played a foundational role in the development of sealed grain storage systems in Australia

In 1986, GSS worked alongside CBH to establish sealed storage concepts in Western Australia. Today, CBH operates 100% sealed storages and is recognised globally as a leader in this space. GSS has since worked with all major grain handlers across Australia, delivering consistent, high-performance outcomes.

CORE CAPABILTIES

END-TO-END SEALING SOLUTIONS

GRAIN STORAGE SEALING AND CONTROLLED ATMOSPHERE SYSTEMS

PROTECTIVE COATINGS AND MEMBRANE APPLICATION

EXPANSION JOINT AND MOVEMENT SYSTEMS

CONCRETE REPAIR AND REMEDIATION

PRESSURE TESTING AND COMPLIANCE VERIFICATION

CUSTOM-ENGINEERED SEALING PRODUCTS

HIGH-RISK AND REMOTE PROJECT DELIVERY

INTEGRATED DELIVERY MODEL

FIELD SERVICES & INSTALLATION

- Sealed grain storage systems (internal and external)
- Controlled atmosphere sealing solutions
- Concrete silo sealing and resealing
- Application of specialised sealing systems (water-based elastomeric membranes and polyurethane spray foam systems)
- Pressure testing (100% success track record)
- High-risk work execution (working at heights, confined spaces)
- Remote and regional project delivery
- Shutdown and maintenance works

PRODUCT DESIGN & MANUFACTURING

- Development of specialised sealing membranes, paints and jointing systems
- Manufacturing of elastomeric and polymer-based systems
- Custom-engineered sealing solutions for grain, industrial and infrastructure applications
- Toll manufacturing capabilities
- High-performance dispersers, ribbon blenders and state of the art automated sausage filling machines

YOUR SEALING SPECIALISTS

INDUSTRIES WE SERVICE

Specialist sealing solutions across critical Australian industries

Global Sealing Group delivers advanced sealing, containment and protective coating solutions across a range of industrial sectors throughout Australia. Our experience working in high-risk, large-scale and remote operating environments allows us to support critical infrastructure and operational assets with reliable, performance-driven solutions.

AGRICULTURE

Supporting Australia's grain storage and bulk handling sector with industry-leading sealing systems, controlled atmosphere solutions and silo remediation works.

MINING & RESOURCES

Delivering specialised sealing and protective coating solutions for industrial infrastructure, shutdown works and remote operational environments.

MARINE & PORTS

Providing sealing and protective solutions for port infrastructure, bulk handling facilities and marine assets operating in demanding coastal environments.

COMPETITIVE ADVANTAGES

LEADER IN GRAIN SEALING

Proven track record across all major Australian grain operators

TECHNICAL PERFORMANCE

Deep knowledge of sealing systems and controlled atmosphere performance, backed by a 100% success rate in pressure testing

NATIONAL CAPABILITY

Ability to deliver projects across all states, including remote locations

INTEGRATED DELIVERY MODEL

Manufacturing and installation ensures quality control

SPECIALISED EQUIPMENT

Polyurethane foaming machines, water pressure blasters, paint machines and fully equipped site-specific vehicles

SAFETY FOCUSED

Extensive experience in high-risk work environments

QUALITY & SAFETY

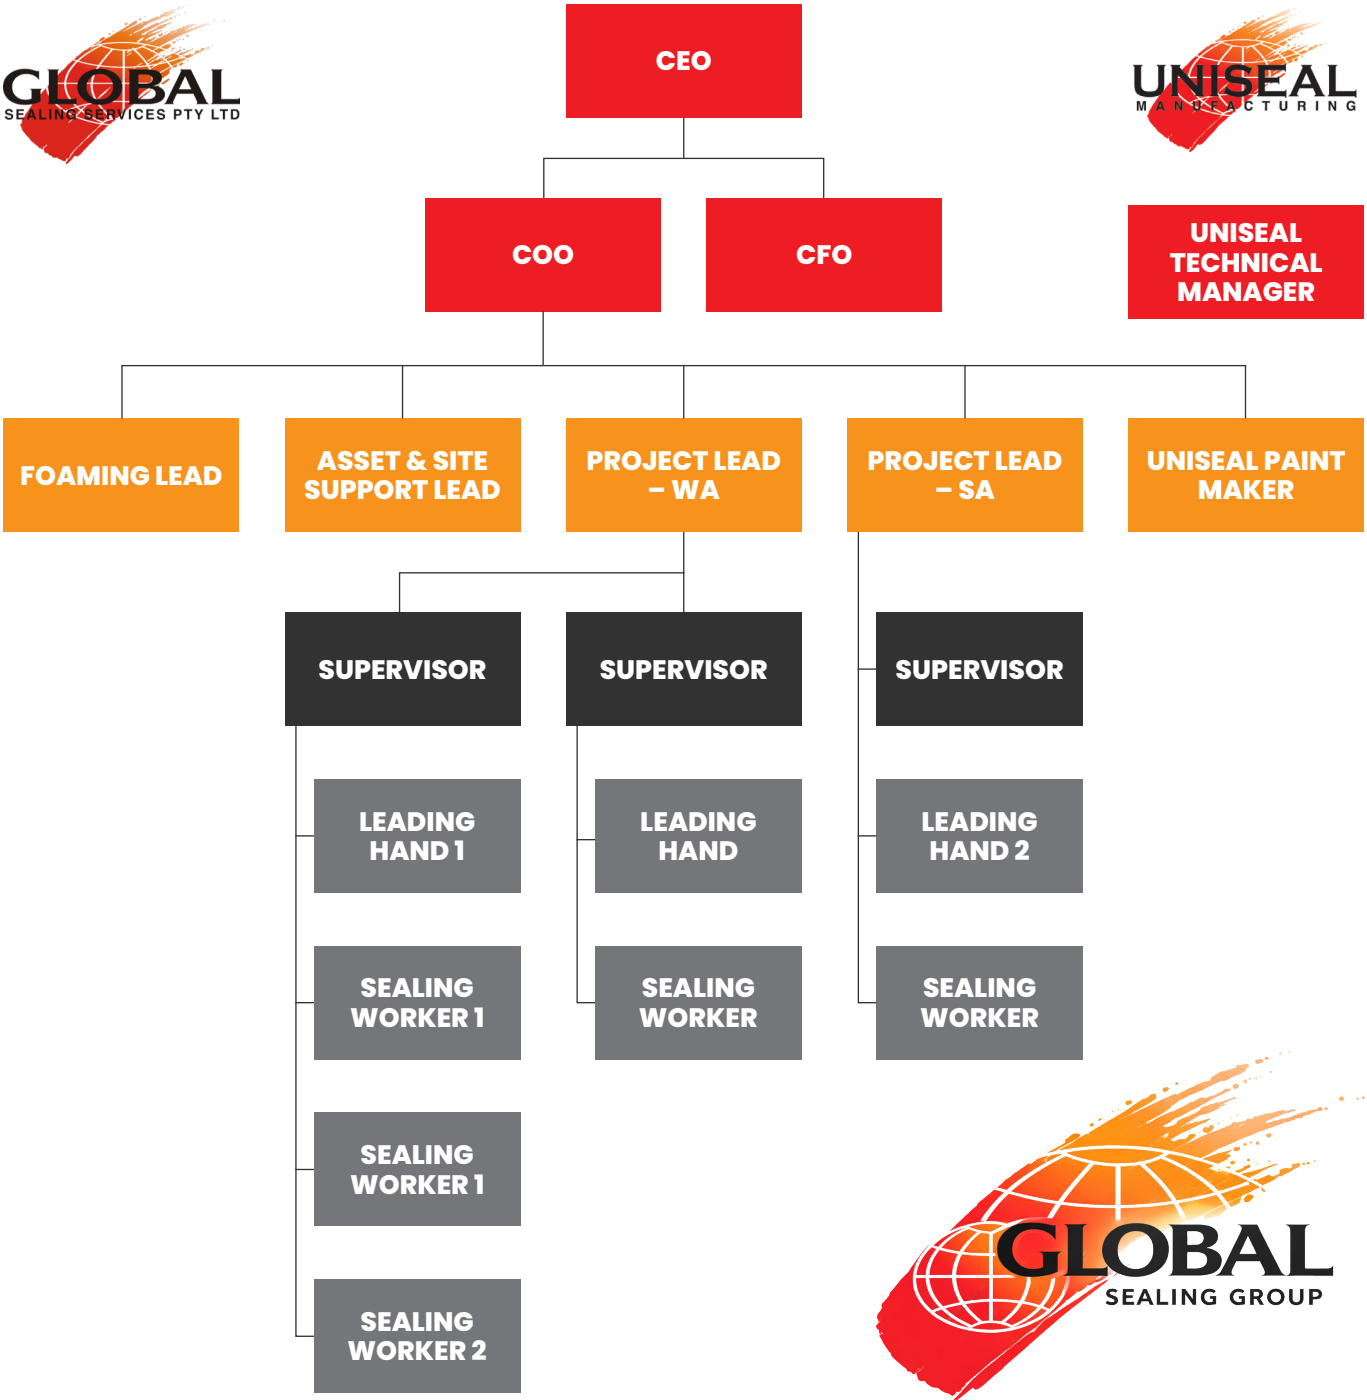

Delivering safe, consistent and reliable outcomes

Global Sealing Group operates under strict QA/QC procedures and industry best practices, ensuring all works are completed safely, efficiently and to a consistently high standard. Our team has extensive experience operating within high-risk industrial environments, including confined spaces, working at heights, shutdown works and remote project locations. We maintain a strong focus on high-risk work management, safety compliance and systems, and consistent, repeatable quality outcomes to ensure reliable long-term sealing performance across every project.

KEY CLIENTS

OUR STRUCTURE

**OUR GROUP INTEGRATION ENSURES
ALL SOLUTIONS ARE FIT-FOR-PURPOSE,
TESTED, AND PERFORMANCE-DRIVEN**

ADVANCED SEALING SOLUTIONS BUILT FOR LONG-TERM PERFORMANCE
